- A. In order to recover increased operating and storage costs incurred as a result of congestion caused by containers left on the terminal for extended periods of time, the following fees will apply to all loaded import containers at the rates, and for the effective period, set forth in this Section 33.1 (the "Extended Dwell Time Congestion Fee").

- B. Extended Dwell Time Congestion Fee shall apply and be assessed against each loaded import container on the terminal after the expiration of free time as follows:
- i. Containers (other than Refrigerated Containers after the Refrigerated Container Collection Commencement Date (defined below)):
 1. \$45 per day commencing on the first day after expiration of free time, for up to five days (e.g., days 1-5 after free time);
 2. \$69 per day thereafter, for up to five additional days (e.g., days 6-10 after free time);
 3. \$93 per day thereafter, for up to five additional days (e.g., days 11-15 after free time), and
 4. \$162 per day for any days thereafter (e.g., all day from day 16 and after).
 - ii. Refrigerated Containers (after the Refrigerated Container Collection Commencement Date (defined below)):
 1. \$98 per day commencing on the first day after expiration of free time, for up to five days (e.g., days 1-5 after free time);
 2. \$146 per day thereafter, for up to five additional days (e.g., days 6-10 after free time);
 3. \$194 per day thereafter, for up to five additional days (e.g., days 11-15 after free time), and
 4. \$332 per day for any days thereafter (e.g., all day from day 16 and after).

The Extended Dwell Time Congestion Fee is cumulative, for example, the cumulative Extended Dwell Time Congestion Fee for an applicable non-refrigerated container not picked up until the fifth (5th) day after the expiration of free time (i.e., nine (9) days) would be \$225 (\$45+\$45+\$45+\$45+\$45); the fee if that applicable non-refrigerated container was not picked up until the eighth (8th) day after the expiration of free time would be \$432 (\$45+\$45+\$45+\$45+\$45+\$69+\$69+\$69).

For containers for which free time expired on or before the Original Collection Commencement Date (defined below), the Extended Dwell Time Congestion Fee shall be calculated as if the Original Collection Commencement Date is the first day after the expiration of free time for such containers.

For refrigerated containers, the Extended Dwell Time Congestion Fee shall be calculated as follows: (1) prior to the Refrigerated Container Collection Commencement Date, the Extended Dwell Time Congestion Fee shall be calculated in the same manner as a non-refrigerated container at the rates in section 33.1(B)(i), and (2) on and after the Refrigerated Container Collection Commencement Date, the Extended Dwell Time Congestion Fee shall commence calculation at the rates in section 33.1(B)(ii). For example, for a refrigerated container accruing the Extended Dwell Time Congestion Fee for three days prior to the Refrigerated Container Collection Commencement Date,

and not picked up until three days after the Refrigerated Container Collection Commencement Date, the fee would be \$477 (\$45+\$45+\$45+\$98+\$98+\$146).

C. Effective Period: Assessment and collection of the Extended Dwell Time Congestion Fee shall commence as follows:

- i. The Extended Dwell Time Congestion Fee for all containers commenced on January 1, 2022 (the “Original Collection Commencement Date”).
- ii. The Extended Dwell Time Congestion Fee for refrigerated containers shall commence as of January 1, 2022 (the “Refrigerated Container Collection Commencement Date”).

The OPERATOR shall monitor and evaluate Terminal congestion conditions and the effectiveness of the Extended Dwell Time Congestion Fee. The Extended Dwell Time Congestion Fee may be suspended or terminated upon notice and publication of such action by OPERATOR.

D. Other Fees: The Extended Dwell Time Congestion Fee shall apply in addition to any other existing fee for storage or demurrage pursuant to this Schedule and or the Port of Los Angeles Tariff.

E. Payment. The importer of record in the shipping documents will be responsible for paying or arranging for payment of the Extended Dwell Time Congestion Fee by check, money order, credit card (Visa, MasterCard, American Express or Discover), eCheck (Electronic Check) through the WBCT website (<https://wbct.us>), or any other method permitted by OPERATOR prior to release of the container, unless other payment terms are expressly agreed by OPERATOR.

F. Under California law AB-2406, effective January 1, 2023, OPERATOR will not commence or continue free time or impose Extended Dwell Time charges for cargo shipped by intermodal transport under any of the following circumstances:

- i. When the intermodal marine or terminal truck gate is closed during posted normal working hours, for example on a holiday, or during a labor disruption period, or during any other period involving an act of God or any other planned or unplanned action that closes the truck gate.
- ii. When a container provider decides to divert equipment from the original interchange location without 48 hours’ electronic or written notification to the motor carrier.
- iii. When OPERATOR is assessed a fine pursuant to Section 40720 of the Health and Safety Code.
- iv. When the chassis is out of compliance pursuant to Section 34505.9 of the Vehicle Code or the equipment is placed out of service in such a manner as to result in a per diem, detention, or demurrage charge.
- v. When a loaded container is not available for pickup when the motor carrier arrives at the Terminal, or the area within the Terminal containing the cargo or equipment is closed or otherwise inaccessible.
- vi. When the Terminal is too congested to accept the container and turns away the motor carrier.

- vii. When the motor carrier documents an unsuccessful attempt to make an appointment for either a loaded or empty container transaction at the Terminal and no other appointments were available for that transaction within the following windows:
 - a. For appointment attempts during the Terminal's posted first shift hours, no other appointments were available.
 - b. For appointment attempts during Terminal's posted second shift hours, no other appointments were available.
 - c. If OPERATOR does not post shift hours, then the window applicable to subparagraph (A) shall be 7:00 a.m. to 4:59 p.m., inclusive, and the window applicable to subparagraph (B) shall be 5:00 p.m. to 3:00 a.m., inclusive.
- viii. When OPERATOR has unilaterally imposed transaction restrictions, such as single or dual transaction, chassis matching, or empty container requirements that prevent a transaction and failed to provide a return location or other conditions that impede the motor carrier's ability to pick up or terminate intermodal marine containers.
- ix. When a return or delivery of an intermodal container is delayed because a booked vessel's receiving date changes.
- x. When the obstacle to the cargo retrieval or return of equipment is within the scope of responsibility of CUSTOMER or their agent and beyond the control of the invoiced or contracting party.

Extended Dwell Time Congestion Fee will not accrue should any of the conditions of Section 33(F)(i)-(x) apply. Further, advancement of tiered rate will not account for any conditions provided in Section 33(F)(i)-(x).

34. VESSEL SPEED REDUCTION PROGRAM

Pursuant to court order, OPERATOR has committed to Vessel Speed Reduction Program ("VSRP") efforts set forth in the San Pedro Bay Ports Clean Air Action Plan (CAAP). The objective of the VSRP is to reduce NOx emissions from ocean-going vessels by slowing their speeds as they approach or depart the port area. Vessels calling at the Terminal are required to observe the expanded (i.e. 40 nm) VSRP regulations, which mandates that all vessels calling at Berths 97-109 are required to comply with the expanded VSRP of 12 knots between 40nm from Point Fermin and the Precautionary Area. Each vessel, her owners, charterers and agents to whom any of OPERATOR'S berths have been assigned, or who are using or occupying same under any provision of this Schedule, shall comply with the provisions of the VSRP. Failure of a Vessel calling at Berths 97-109 to comply with the VSRP will result in the following enforcement action: (1) for a first offense, a letter of warning to the Vessel's fleet operator; (2) for second offense, assessing a \$1,000 fee against the previously warned fleet manager; (3) for a third offense, a similarly assessed fee in the amount of \$2,500; (4) for a fourth offense, a similarly assessed fee in the amount of \$3,500; and (5) for a fifth offense, suspension of the fleet managers' Vessels from calling at Berths 97-109.

Program requirements, including the seaward latitude and longitude positions and weighted average speed calculations are described in the Port of Los Angeles Tariff No. 4 at <https://www.portoflosangeles.org/business/tariff>.

35. DOCKAGE

DOCKAGE is the charge assessed against a vessel for berthing at or making fast to an OPERATOR controlled wharf, pier, bulkhead structure, or bank (inside berth), or for mooring to another vessel so berthed (outside berth).

The rates for dockage shall apply according to the overall length of the vessel, except as otherwise specifically provided in this Schedule. United States Custom House, Lloyd's Register, or American Bureau of Shipping measurements, when available, will be used in determining the length of vessels, but OPERATOR reserves the right to measure vessels when necessary to obtain measurements for use as the basis for its charge.

Dockage charges shall be assessed against all vessels subject to the payment of dockage under this Schedule at the full dockage rates per the Port of Los Angeles Tariff or its successor, and shall be paid by the vessel so assessed, through its master, owner, agent or other person duly authorized so to do.

The period of time for which dockage shall be assessed against a vessel shall commence when such vessel is made fast to a wharf, pier, bulkhead, structure, or bank or to another vessel so berthed, and shall continue until such vessel is completely freed from and has vacated such berth.

All charges for dockage are due and payable when incurred and must be paid, whether approved by the Master or not, before any vessel leaves the berth, unless forced to do so by stress of weather or fire.

Refusal or failure to pay dockage in accordance, or otherwise upon presentation of bill therefore, shall subject the vessel to the penalties provided by law and this Schedule. Such penalty may include the requirement to pay double the dockage incurred and not paid before being permitted to berth at the Terminal again.

36. CUSTOMER'S SAFETY OBLIGATIONS

A. VESSEL SAFETY

Any vessel having business at the Terminal, including its owner, operator, master and crew, receiving access to and/or use of the Terminal and/or Services subject to the provisions of this Schedule, including without limitation the security provisions set forth herein. In addition, all such vessels must abide by the following rules:

- ii. Pilots and Assist Vessels. Vessels may be required to utilize pilots and/or assist tugs, in accordance with vessel type and as required by applicable laws or local custom. CUSTOMER is solely responsible for inquiring as to all such matters

prior to arrival of the vessel and any failure to do so may result in a denial and/or penalty charges, at OPERATOR'S option.

- iii. Prior Arrangements. All berthing arrangements must be made in advance and shall be subject to availability. OPERATOR does not guarantee berthing availability generally or the availability of any particular berth. Vessels arriving without prior arrangements may incur extra charges.

OPERATOR shall not be required to, and may refuse to, begin or continue Services if the it believes, at its own sole discretion, that safety violations or deficiencies exist relating to the vessel, her equipment or gear, and the violations or deficiencies will create a harmful condition.
- ix. Oils, Noxious Substances, and Garbage. The discharge of ballast, bilge or oil contaminated water, or any noxious liquid, sewage, garbage or debris, into the slips, channels, rivers, or other waters, or on land, at or around the Terminal is strictly prohibited. Violators shall be subject to charges, penalties and fines, and in the event of a violation, CUSTOMER shall be solely responsible for the cost of and coordination with the Coast Guard and any other federal, state or local agencies for all removal, clean-up and restoration in a manner consistent with applicable laws. CUSTOMER shall defend, indemnify, and hold OPERATOR harmless from and against any losses arising from or relating to any such discharge or violation (including but not limited to attorneys' fees

and costs, damage or loss to property owned or leased by OPERATOR, and/or any fines or penalties assessed or relating thereto).

- x. Emissions. CUSTOMER shall comply with all local, state or federal rules, policies, procedures, Tariffs (including Port of Los Angeles Tariff No. 4) regulations, ordinances, and/or laws regulating noises, odors, air emissions or the like. CUSTOMER shall also comply with any requirements imposed by OPERATOR relating to noises, odors, air emissions or the like, which requirements may change from time-to-time. CUSTOMER shall defend, indemnify, and hold OPERATOR harmless from and against any losses arising from or relating to any such emission (including but not limited to attorneys' fees and costs, damage or Loss to property owned or leased by OPERATOR, and/or any fines or penalties assessed or relating thereto).
- xi. Orders to Vacate Berth and Removal of Vessel. OPERATOR may order any vessel to vacate its berth if it fails to cooperate with an order to complete loading/discharging and/or if OPERATOR, in its sole discretion, believes such vessel presents a risk to persons or property at the Terminal. In such event, OPERATOR shall provide written notice to CUSTOMER, including by e-mail or facsimile, setting forth the date and time the vessel is to vacate, unless an emergency circumstance requires the vessel to vacate immediately. If the vessel fails to vacate when and as ordered by OPERATOR, CUSTOMER shall be responsible for and agrees to indemnify and hold harmless OPERATOR from and against (including legal fees and costs) any loss resulting from such delay and/or failure to vacate. Upon completion of terminal services for the vessel or an order to vacate as described above, CUSTOMER shall immediately remove the vessel from the terminal facility at its risk and expense.
- xii. Right of Inspection. OPERATOR shall have the right to inspect the vessel work areas, gear and equipment to determine that all laws and regulations applicable to such areas and equipment have been satisfied. OPERATOR shall also have the right to inspect valid registers and certificates applicable to all equipment and gear prior to the commencement of Services (including cargo operations).
- xiii. Compliance with all laws. CUSTOMER and all of its vessel will at all times comply with all regulations, state and local rules, tariffs, policies, procedures, and laws. CUSTOMER shall be liable for all losses incurred by or imposed on OPERATOR as a result of CUSTOMER'S failure to comply with any such federal, state, and local rules, regulations, ordinances, tariffs, policies, procedures, and laws.
